

COPEN HAGEN ²⁰₂₅

Design Guide for Graphics

All Graphics must first be purchased through our Exhibitor portal ahead of submission.

Please note that it is the Exhibitors responsibility to ensure the correct DPI and measurements are used.

Deadline for Graphic is:

Wednesday 2 July 2025

What is a print ready file?

We print directly from your pdf file.

This makes it very important that your file is made in precise measurements

+ 10 mm bleed. Cropmarks outside the bleed, please.

All files must be in CMYK Colors, using the colorprofile: Coated FOGRA39.

Recommended resolution: 100 dpi in 100% size (1:1)

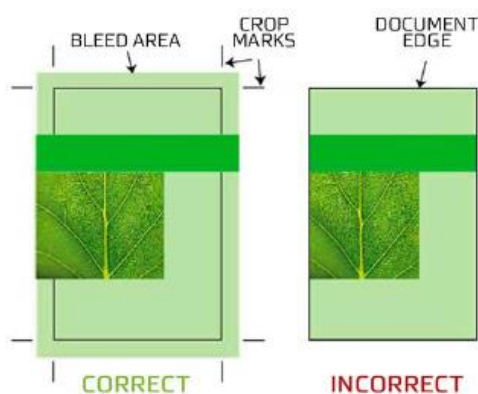

All texts should be outlined in order to eliminate font problems.

You can check if the resolution is ok simply by viewing your file (or part of it)

in 100% real size on your screen.

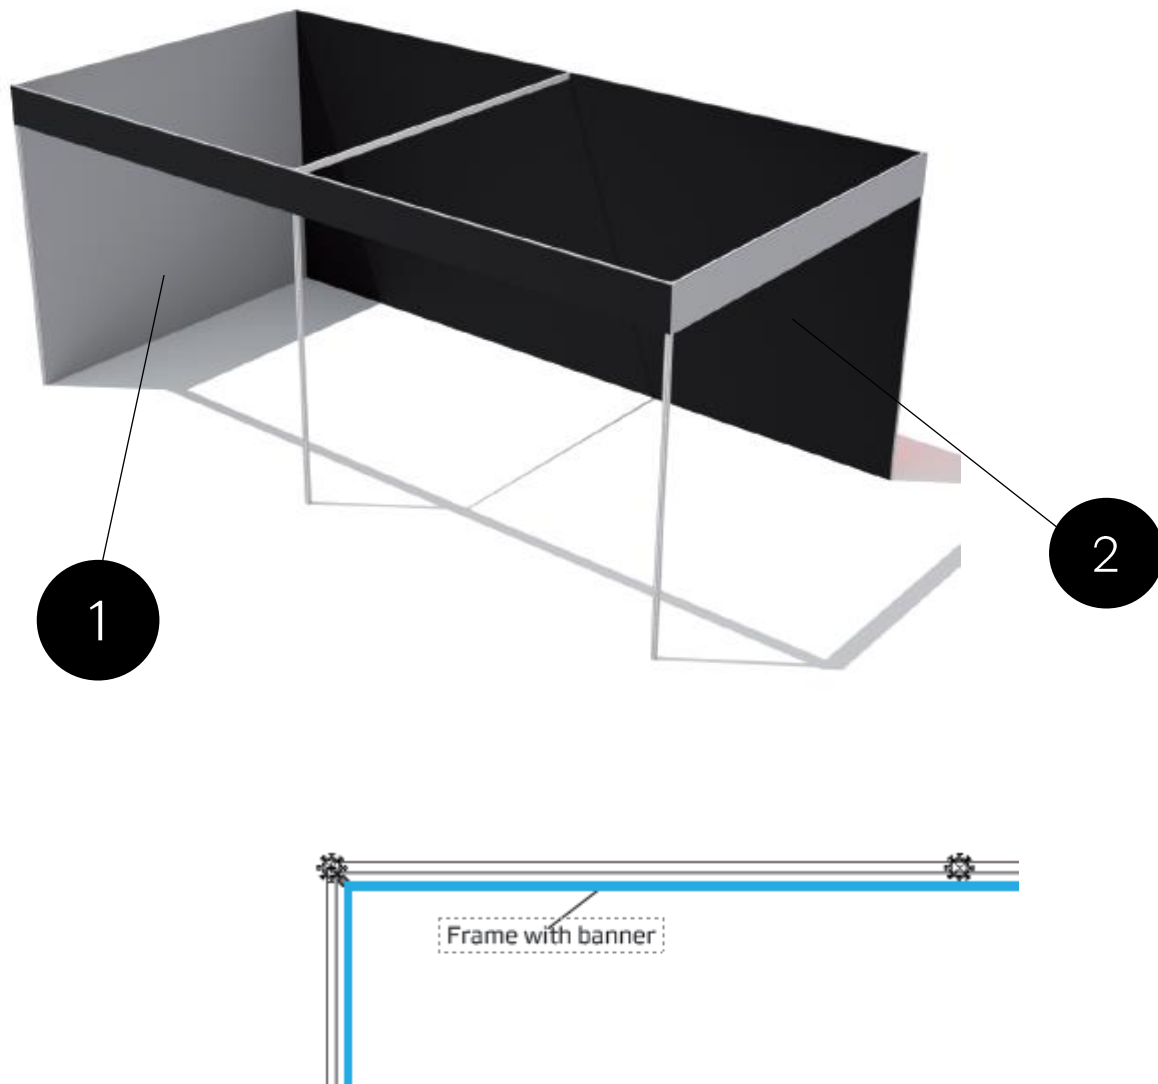

Use the [link](#) if you want to watch a video showing how to make a print ready file from Adobe InDesign.

If you need to transfer files that are too large for email we recommend the service [Wetransfer.com](#). If you choose to work with We transfer, please select 7 day expiration.

This example shows a 18 square meter stand 3 x 6 meters:

This example shows a 18 square meter stand 3 x 6 meters:

Graphic measurements:

- 1 3-meter full colour print:
w:2935 x h:2500 mm + 20 mm bleed
- 2 6-meter full colour print:
w:5935 x h:2500 mm + 20 mm bleed

Other Graphic measurements:

- 2-meter full colour print:
w:1935 x h:2500 mm + 20 mm bleed
- 4-meter full colour print:
w:3935 x h: 2500mm + 20mm bleed
- 5 meter full colour print:
w: 4935 x h: 2500mm + 20mm bleed
- 6 meter full colour print:
w: 5935 x h: 2500 mm + 20 mm bleed
