Demodex blepharitis: The Hidden Disruptor

Sunday 14 September, 2025
9:30 AM – 10:30 AM – Hall D5

Demodex blepharitis (DB) is a common, yet often overlooked or misdiagnosed lid margin disease caused by an infestation of *Demodex* mites.¹ DB may negatively impact patients' lives: clinically, functionally and psychosocially.^{1,2}

Speakers:

Erik Mertens, MD

Medipolis Clinic, Antwerp,
Belgium

Radhika Rampat, MD

Consultant Ophthalmic Surgeon,
NHS and private practice, London UK
